github.com/ishmalkhanbaloch17-droid · Multan, Pakistan

Bahauddin Zakariya University (BZU) · 8th Semester · 2022–2026

TECHNICAL SKILLS

Python	
SQL	
R / MATLAB	
Pandas & NumPy	
Matplotlib/Plotly	
Machine Learning	
Statistical Analysis	
Financial Modeling	
Excel	

TOOLS & SOFTWARE

Jupyter	Excel	R Studio	Power BI
Plotly Dash	Canva	AutoCAD	
PowerPoint			

LANGUAGES

English	
---------	------------------------

ACHIEVEMENTS

BusinessEXPO

Event Organizer

Best Girls

Representative Award

PROFILE

Mathematics undergraduate with strong expertise in data analysis, financial modeling, and quantitative methods. Proficient in Python, SQL, R, and MATLAB with hands-on experience building predictive models, interactive dashboards, and DCF valuations. Passionate about applying mathematical rigour to real-world financial and data challenges.

EDUCATION

BS Mathematics

2022 – 2026

Bahauddin Zakariya University (BZU), Multan

Relevant Coursework

Core Mathematics: Calculus, Functional Analysis, Algebra, Discrete Mathematics**Advanced Math:** ODEs, PDEs, Stochastic Calculus, Complex Analysis, Operations Research**Finance & Analytics:** Portfolio Theory, Machine Learning, Time Series, Actuarial Mathematics**Business Studies:** Business Administration, Strategic Management, Entrepreneurship

SELECTED PROJECTS

Stock Price Forecasting

Time-series forecasting of MCB stock using ARIMA and Prophet with Plotly visualizations.

Financial Statement Valuation

Ratio analysis and DCF valuation model implemented in Excel and Python.

MCB Stock Simulation

Monte Carlo simulations of future price paths with log-return distribution analysis.

Interactive Dashboards

Exploratory dashboards using Plotly Dash and Power BI for dynamic data analysis.

Smart Tax Policy Poster

Visual policy proposal with supporting statistical charts and commentary.

Functional Analysis Poster

Academic summary of functional analysis concepts and real-world applications.

CORE COMPETENCIES

Predictive Modeling

Statistical Analysis

Hypothesis Testing

Data Mining

Financial Modeling

Portfolio Analysis

Risk Management

Time-Series Analysis

Data Visualization
